		£19,593	£20,064 + V

How has the PE and Sport Premium grant made a difference to our school?

- We are continuing to work closely with one of the leading PE and sports coaching companies, Achieve 4 All Ltd, to raise the level of achievement reached by pupils as well as working alongside teachers to increase their subject knowledge and confidence.*
- Teachers will continue to benefit from numerous training on a range of sports helping them to develop their PE and sports skills which in return has enhanced and developed the children's learning in these sessions.*
- Participation of sport during after school clubs has increased. Children continue to enjoy the opportunity to take part in various free after school clubs delivered by Achieve 4 All Ltd and school staff. Being able to provide a free football club for all years has been extremely popular and club sizes have increased. It has been wonderful to see the increased participation throughout the schools.*
- Daily lunchtime activities set up by Achieve 4 All Ltd and school playleaders has been extremely popular with the children helping to achieve more PE and sport participation. Activities vary offering a range of events for all abilities and ages.*
- Across the federation we offer high quality swimming provision for all children with each class continuing to have their statutory 3 x hours of lessons per year. At St. Michael's the children have attended Newton Abbot Leisure Centre Swimming Pool and Kingsteignton outdoor pool for their sessions and we also secured extra swimming slots/instructors at NALC reserved for any children that require additional support with their water confidence. The PE and Sport premium fund has helped finance transport costs to and from the swimming pool. This is supplemented by the school budget in order to give parents every opportunity for the children to take part swimming at no cost.*
- Swimming results - By July 2019 88% of Year 6 children could swim competently, confidently and proficiently over a distance of at least 25 metres. 88% can also perform safe self-rescue in different water-based situations. 85% of children use a range of strokes effectively e.g. front crawl, backstroke and breaststroke.*
- Children who have a particular sporting talent are offered extra opportunities to take part in training and competitions.*
- Sporting equipment is being continually updated making sure that high quality equipment is available for all classes to use.*

Note: from April - July 2018 Saints South West continued to work with the children but from September 2018 we took advantage of the fresh ideas offered by Achieve 4 All Ltd.
