

Year Three Summer Term 2 2022

Here is our topic for this half term. Please use it to support your children's learning. They are welcome to bring things into class that are related to our topic and if any adults would like to come in and share some stories, please see your child's class teacher.

As Authors we will:

- Explore how explanation texts are written.
- Explore how different tenses are used and then practice using them in our own writing and try using them.
- Practice using a variety of conjunctions in our writing
- Practice using speech in our writing.

As Scientists we will:

- Learn about flowers and the parts of them.
- Learn about how insects help to pollinate flowers.
- Learn how water is transported around the plant.
- Learn about magnetic poles and compasses.
- Learn how magnets attract and repel different materials.
- Learn about forces. And what ones are needed to make objects move.

As artists and designer's we will:

- Practice our sketching skills.
- Design our own play parks.
- Create our own model play equipment.
- Evaluate our designs and check what forces are being used in them.
- With what we have made create our own play park.

As readers we will:

- Develop our reading and comprehension skills through guided and shared reading
- Discuss our reading with others
- Aim to read at home 4 times per week

Science

The Big Question:

- 1. How does the blossom become an apple?**
- 2. Do opposites attract?**

As Athletes we will:

- We will learn the skills needed for athletics.
- We will take part in athletics.
- We will take part in some competitive games.
- We will celebrate others achievements.

As linguists we will:

- Continue learning French vocabulary focusing on pets and grammar.
- Grow in confidence in speaking in another language
- Learn more about French culture and the similarities and differences between French and British culture.

As Citizens we will:

- Understand the importance of looking after our bodies.
- Understand how acceptance of others and their different world views makes for a stronger and happier society.
- Learn about other faiths and our own and how they make us all different.

As mathematicians we will:

- Continue to learn about fractions and how to use them.
- Learn about time.
- We will use this knowledge to help us in real world situations.
- Learn about shape and their properties.
- Learn about mass and capacity.
- We will conduct a math's investigation.
